ander Stewart, president of the State Board of Charities yesterday, desiring an early conference f paying the institutions might be removed. Stewart had not yet received the Controller's letter yesterday afternoon, but said that he was anxious to meet Mr. Fitch in relation to the trouble, and should assent to an interview as soon as it could be arranged. Later he sent the following letter to The Tribune in reference to the matter:

be arranged. Later he sent the following letter to The Tribune in reference to the matter:

To the Editor of The Tribune.

Sir: A number of articles in the press have come under my observation during the last few days relating to the payment of public money for the support of immates in charitable institutions under private management, which are misleading, and which, if not corrected, would have a tendency to leave the State Hoard of Charittes in a false position.

The Revised Constitution. Article VIII, Section 14. The Revised Constitution. Article VIII, Section 14. The Revised Constitution are control for care, support and maintenance may be authorized, but shall not be required by the Legislature. No such payments shall be made for any immate of such institutions who is not received and retained therein pursuant to rules established by the State Board of Charittes. While such additional power was not requested by the State Board of Charittes, it fully recognizes the obligation thus imposed, and appreciates the confidence reposed in it by the Constitutional Convention. After public hearings in this city and the report of a special committee on the subject, the State Board adopted provisional rules and regulations at its me-time in Albany on January 31 last, and the form of report, bill and certificate required by such rules. Copies of these rules and regulations were immediately thereafter mailed to all the institutions affected so far as they could be ascertained by the board, and may be obtained by application to the secretary of the State Board of Charities at the Capitol at Albany. Owing to the elaborate special character of the work it has been impossible to obtain the reports and bills from the State Board to make regular inspections of all the institutions affected so far as they could be ascertained by the board, and may be obtained by application to the State Board to make regular inspections of all the institutions. In the countiles of the formers of the Kinter Board to make the presented by such i

certain the conditions, to control which rules and regulations might be necessary.

As to any dispute or conflict with the State Charities Aid Association I know of none, but on the contrary information furnished directly by this association to the State Board of Charities has greatly facilitated the framing of provisional rules and regulations adopted by it.

President of the State Board of Charities.

Policeman Frank Rohrig, of the West Twentieth-t, squad, entered the mission at that moment, having heard cries for help as he was passing the place on his post. At sight of the man in uniform the roughs became quiet suddenly, but Mr. Bicknell and Mr. Cole pointed them out and had them arrested. Flood said he was twenty-six years old and lived at No. 45 West Seventeenth-st. Mack said he lived at No. 244 West Seventeenth-st. Mack said he lived at No. 244 West Seventeenth-st., and was twenty-seven years old. O'Brien said he had no home, and he gave his age as thirty-one years. They were locked up at the police station until yesterday morning, when they were arraigned at the Jefferson Market Police Court.

Mr. Bicknell and Mr. Cole were complainants against the prisoners, Flood and Mack were held in \$500 bail each for trial for assault, and O'Brien was sent to the island for a month.

COL. WARING'S ESTIMATES.

WHAT IT COSTS TO REMOVE THE SNOW.

matter that confronts the Street Cleaning Department. His figures were based on estimates made by Clarence D. Poliock, of that department. The letter said in part:

Would it pay to remove all the snow from the completely built area? The cost of this must be enormous. Would the result justify it?

We have had during the last fourteen days an illustration of the effect of removal and of nonremoval. The last storm, six inches, fell on February 7 and 8. Within a few days the main thoroughfares were cleared, and since then have been in good October condition. In most of the streets the snow was allowed to remain untouched, and, as the midday sun hardly reached the cross streets, much of it lies there still, changing from slush to ice, according to the weather.

The cleared streets are in their usual state of cleaniness. The untouched, and if the snow melts away without a heavy rain it will be a slow and costly operation to get them even reasonably clean again. This state of affairs is likely to confront us more than once in a winter.

When we go into the tenement-house districts the conditions are really appalling. The general wretchedness of hundreds of thousands of human beines east of Broadway and south of Fourteenth-st. can hardly be limagined by one who has not traversed their streets during a thaw when the ridge of snow on each side-piled from the sidewalk on the one hand and from the railroad on the other, thick-strewn with ashes and rubbish which the cartis cannot remove—is turning to slish and dirty water and filling the air with chill dampness.

If all the snow could be removed within three days belancy-st. could be kept as dry and clean as Broadway is to-day, and the health and happiness of the people would be removed within three days belancy-st. could be kept as dry and clean as Broadway is to-day, and the health and happiness of the people would be removed within the days death—whether or not the removal of a serious obstruction to traffic, of a clog on indusity, of a serious obstruction to traffic, of

"Why, you can now see how my fingers are twisted. I suffered terribly with them; and as to going up and down stairs, it was almost an impossibility, for my legs refused to act, and I was in danger of falling every step I took; but, thanks to Dr. Williams' Pink Pills for Pale People, I am all right now."

to Dr. Williams' Pink Pills for Pale People, I am all right now."

"How long have you been taking the Pink Pills and how many boxes did you take before you received any benefit?" asked the reporter.

"It was not until last spring that I concluded to try the Pink Pills. After I had read of the marvellous cures they had performed I determined to try them. I commenced by purchasing three boxes. Before I had taken half of them I perceived that I was much better. Last fall I bought some more, which did the business and effected a cure. Those excruciating pains have all left me and I can run up and down gadirs as easy as a boy. I am now nearly sevenity years of age. I consider Dr. Williams' Pink Pills for Pale People a most wonderfall medicine. They have given me new life and strength, and actually cured all my rheumatic pains' from which I suffered for ten years, and after all other remedies which I tried had failed."
